Conference Overview:
This 2-day update in diagnostic immunohistochemistry in both surgical pathology and cytopathology, with a format of didactic lecture and case-based presentation on diagnostically challenging cases in the fields of surgical pathology and cytopathology, will allow practicing anatomic pathologists to become proficient in the application of diagnostic IHC in different subspecialties. The conference, presented by national experts in the field of IHC, will provide in-depth discussions on standardization of diagnostic IHC, newly described IHC markers, and implementation of best practices in diagnostic IHC. This symposium will address questions that practicing pathologists encounter in day-to-day practice and help residents and fellows with their specialty board exam preparations.

Intended Audience and Conference Objectives:
This symposium is intended primarily for practicing pathologists, fellows, residents and other health care professionals.

At the conclusion of this symposium, participants should be able to:

- Describe the applications and pitfalls of newly described IHC markers
- Apply the best practice concept of using IHC in daily practice
- Demonstrate improvement in diagnostic skills in problematic surgical and cytologic cases
- Recognize newly described entities in different organs
- Communicate results effectively with the clinician and better appreciate the importance of triple test (clinical, radiological and histologic) correlation

Accreditation:
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Medical Society of New Jersey (MSNJ) through the joint providership of Princeton HealthCare System and the Chinese American Pathologists Association (CAPA). Princeton HealthCare System is accredited by MSNJ to provide continuing medical education for physicians.

Princeton HealthCare System designates this live activity for a maximum of 10.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

If you have a disability that may require special assistance, please contact Janis Puleio, CME Coordinator, at (609) 853-7450.

20-minute presentation from ACD - Dr. Yuling Luo
10-minute presentation from NovoDix - Dr. Jianfu Wang
Photo Exhibition Hosted by Marilyn Bui and Lizhen Gui

Sunday, August 23, 2015

7:00 – 7:50 a.m. Registration and Breakfast (provided)
Visit Exhibitors

7:40 – 7:50 a.m. Group Photo
7:55 – 8:00 a.m. Introduction - Fan Lin
Session #2. Moderators: Huamin Wang and Marilyn Bui

8:00 – 8:30 a.m. Updates in IHC for Skin Tumors - Limin Yu
8:30 – 9:00 a.m. Updates in IHC for Bladder and Testicular Tumors - Steven Shen
9:00 – 9:30 a.m. Updates in IHC for Lung, Pleura and Mediastinum - Haodong Xu
9:30 – 10:00 a.m. Questions and Break
Visit Exhibitors

10:30 – 11:00 a.m. Updates in IHC for Head and Neck and Endocrine Tumors - Jim Zhai
11:00 – 11:30 a.m. Case-Based Lecture on Breast Lesions Using IHC Approach - Beiyun Chen
11:30 – 12:00 p.m. IHC Updates for Lymphoma - Youli Zu

12:00 – 12:55 p.m. Updates on Digital Pathology - Dr. Stella Redpath
12:00 – 12:55 p.m. Lunch (provided by CAPA)

12:55 – 1:00 p.m. Introduction - Fan Lin
Session #3. Moderators: Jim Zhai and Zongming Chen

1:00 – 1:20 pm FNA/Cytopathology - Longwen Chen
